

Invasive Landscape Pests on the Horizon: Discussion on Box Tree Moth and Beech Leaf Disease

Join us for a **FREE** virtual seminar!

The JLW CISMA is happy to host MSU Extension Educator Dr. David Lowenstein (Consumer Horticulture) for a talk on box tree moth and beech leaf disease. Trade, travel, and tourism enhance our quality of life and also make it easier and quicker for accidental introductions of plants and insects. Learn several common pathways that non-native species can use to arrive here! This talk will cover several invasive insects and a tree disease that are beginning to show up in the area.

Wednesday May 10, 2023
6:30pm to 7:30pm
